

Empty Epoxy Syringe 100 Pack

Part Number: 5014733IRC100

Quick Overview

When assembling multiple fiber optic connectors, these Epoxy Syringes enable you work quickly and efficiently. The included dispensers (needles) enable you to easily inject epoxy into connectors. Economically priced, they can be replaced the moment the epoxy is no longer easily workable. A larger diameter 1.1mm applicator needle is also available, F1-4012, which can be used with the 501473-3IR empty syringe.
